

KEEPING YOU & YOUR HOME SAFE
WHILE SELLING DURING COVID-19

Listing Support Level 3

GIVING GROUP REALTY | KELLER WILLIAMS PREMIER PARTNERS

Our client's safety and happiness has always been our highest priority. To help you continue to keep your home a safe and healthy place we are now offering three levels of listing support, each with tailored protocols and a list of clearly defined showing expectations for buyers and their agents.

These listing support offerings are on top of any government issued COVID-19 regulations.

Together, we can make your home sale experience smooth and safe, from listing to closing!

LEVEL 3 SHOWING CONDITIONS

- All visitors to your home will be asked to wear gloves, shoe covers, and a mask during the tour
- We will provide hand sanitizer and ask that visitors take a moment to sanitize upon arrival
- All visitors must fill out and sign a COVID-19 Symptoms Questionnaire before entering your home
- We will ask that all home showings be done via a virtual tour, with offers subject to interior inspection. This will limit visitors to your home to real estate agents and only their serious buyers
- We will supply a sanitizing agent and ask the buyer's agent to clean anything their buyers touch while touring the home such as light switches, door handles, drawer pulls, or any surfaces
- Our Listing Support Care Package includes disposable gloves and shoe covers, COVID-19 questionnaires, hand sanitizer, a sanitizing agent, and a Protocols sheet to display on your front door

When requesting a showing, buyer's agents will be reminded that they are being asked to respect all of the above showing conditions and to assist their clients in following them as well.
